NEWS RELEASE

Temporary Lane Closures at Monroe Avenue and Main Street

(News release date: Wed Oct 16, 2013)

The Green Bay Public Works Department (DPW) is announcing temporary lane closures at the intersection of Monroe Ave (WIS 54/57) and Main Street (US 141). Crews will be finishing the water and sewer work in advance of the 2014 Monroe Ave reconstruction project. This work is scheduled for Thursday, October 17 from 6 AM to 2 PM.

One through lane of traffic will be maintained in each direction on University Ave and Monroe Ave approaching and through the Main St intersection. The ongoing Monroe Ave work zone from Main St to Cass St also will continue to be reduced to one lane in each direction. Elm St will be closed at Monroe Ave. From 9 AM to 11 AM, westbound to northbound left turns will be prohibited from Main St to Monroe Ave, and one westbound through lane will be closed. A majority of the work zone will be removed by the end of the week, with spot lane closures to take place through Friday, October 25.

Motorists should expect delays through the work zone. All lane restrictions and work operations are weather dependent and subject to change. Visit us on Facebook at <https://www.facebook.com/GreenBayCity> for additional City and project information.
